### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: as stated in the response, the prior art does not disclose and would not render obvious the formation of the intermediate chamber as claimed, in particular the rigid plates having striped depressions and projections on the intermediate chamber side with holes in these depressions, with the formation of channels when the ends of the projections on one rigid plate contact the end of the projections on the other rigid plate.

The prior art while disclosing the formation of an intermediate chamber does not teach the particulars presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
